

# HFV Protocol — Whitepaper v3 (August 2025)

## Seed Sale Status

The Seed Sale is live.

Allocation: 2.1M HFV (3% of total supply)

Price: \$0.99 per HFV

Accepted Tokens: ETH & USDC

Vesting: 6-month linear unlock

Contract: 0xbE39EbB5DaE5292658efF152Ec4EE37Ddc558812 (verified)

## Governance Model

HFV is fully DAO-compatible. Community contributors and token holders will govern:

Protocol upgrades

Treasury allocation

Audit and security proposal funding

Contributor rewards

Modules planned include:

Investment DAOs

Grant DAOs

Security DAOs

Platform Governance Tracks

## Security & Audits

All deployed contracts are verified on Etherscan. Audit and security model includes:

Public GitHub code

Static and dynamic analysis

Bug bounty program

Formal verification planned post MVP stability

## Roadmap

Q2–Q3 2025

- Token Deployment
- Seed Sale DApp
- Staking v1 contract
- Glow HUD DApp Interface
- PSF & MF structure

Q4 2025

- Analytics Dashboard
- Audit Preparation
- DAO module prototypes
- Airdrop tracking system

Q5 2026

- Full DAO Governance Activation
- Exchange Listings
- Reward Program Extensions
- Advanced Security Layer

### **Airdrop & Community Incentives**

Airdrop rewards of up to \$50,000 in HFV are available for:

- Following & sharing HFV on X (Twitter), Telegram, Discord
- Referring others to join
- Verified wallet engagement

■ Reward: 100 HFV per verified participant (while supplies last)

### **Disclaimer**

Participation in HFV is at your own risk.

There are no guarantees of token value or success.

All operations are governed by smart contracts, not intermediaries.

Do your own research (DYOR). Regulatory frameworks may evolve.
